Introduction

Name: Yamen Nasr

Age: 14 years old

Grade: 9

Acknowledgements

I would like to say a lot of thanks for all who have helped me in this journey of App Development – my parents, the Clevered team, Clevered Mentors, Dr. Ken, and the group members.

Project Introduction

Match! is an addictive and colorful puzzle game that will keep you entertained for hours. Your goal is to match three or more same-colored circles, just like in the classic game Candy Crush. Keep swapping and matching circles to increase your score until you reach the specified target and unlock exciting new levels. With its simple yet challenging gameplay, Match! is the perfect game to test your matching skills and have a blast in your spare time! Simply say 'start the game,' and it will pick up where you left off, thanks to its speaking and listening blocks. Are you ready to embark on a journey of match-three mastery in 'Match!'?"

Thank you!!!
