Acknowledgements

First of all, I would like to thank all who have helped me in this journey of App Development. My parents, Mr Ken, Clevered, Mentors, Group Members, Friends, Sites etc.

About Me

At age of 11, I was interested in developing stuff like creating apps, programs, and even devices. After some months I started using low-code platforms, this developed my experience and made me more knowledgable. So I moved on to the next step with developing websites using HTML and CSS, later on... I used some JavaScript. About a year later I got into AI or also known as artificial intelligence enhanced a lot of weak points and enlightened, and with the help of Clevered & Their team I could achieve more possibilities
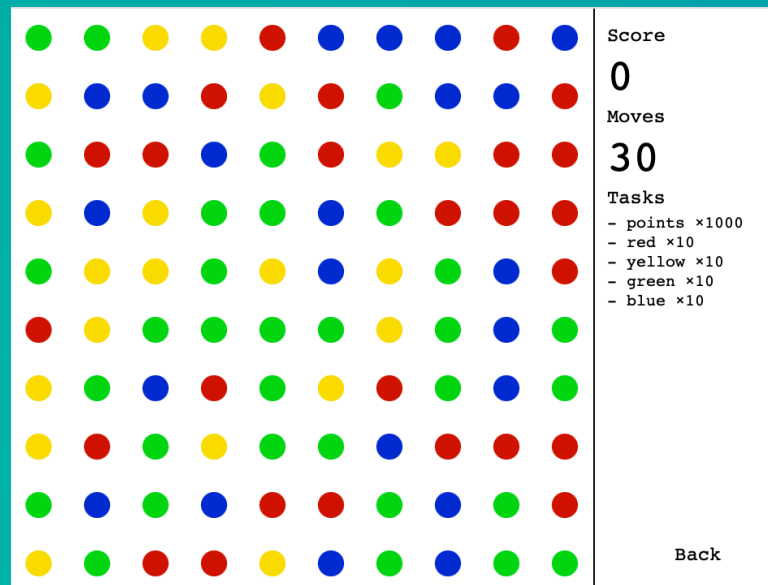

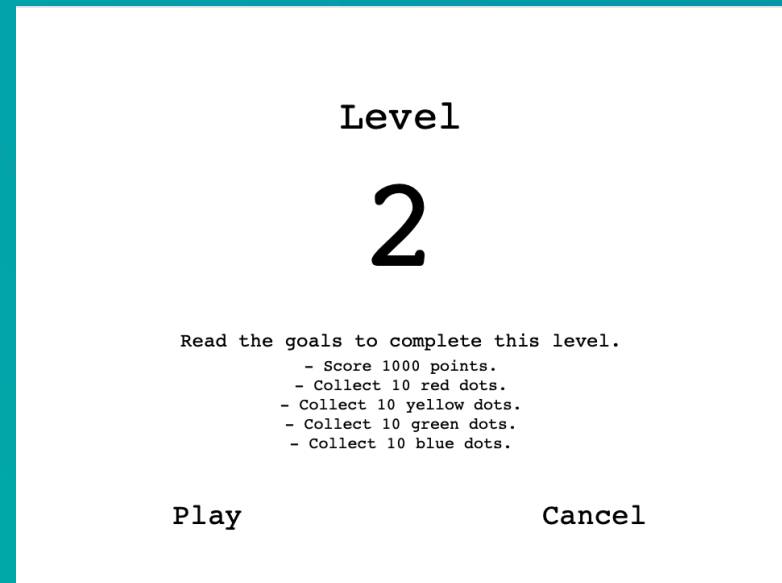

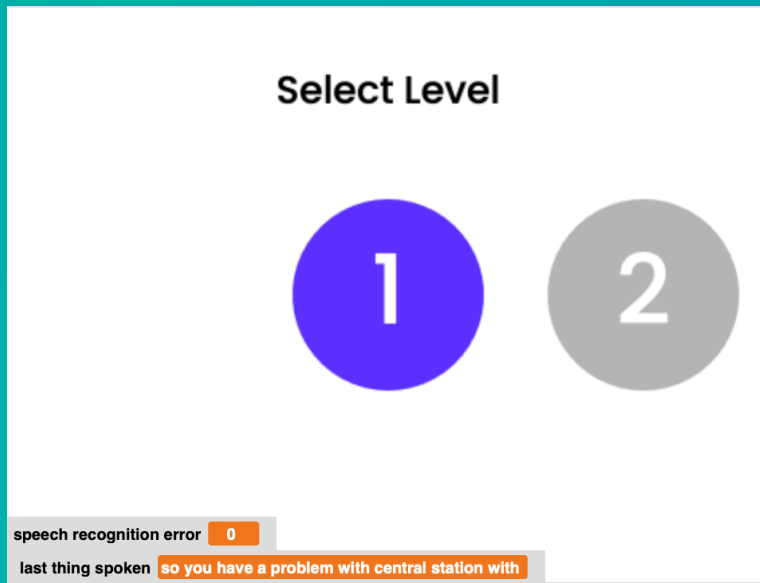

About My Internship With Clevered

Clevered made an enormous achievement in my work, helping me learn deeper and better, and their services were really good making sure they supply you with all the information needed. Clevered worker take care of their customers in a very pleasant way, giving new comers a sense of satisfaction. I am thankful to learn with their team.

About The App

Match! is an addictive and colorful puzzle game that will keep you entertained for hours. Your goal is to match three or more same-colored circles, just like in the classic game Candy Crush. Keep swapping and matching circles to increase your score until you reach the specified target and unlock exciting new levels. With its simple yet challenging gameplay, Match! is the perfect game to test your matching skills and have a blast in your spare time! Simply say 'start the game,' and it will pick up where you left off, thanks to its speaking and listening blocks. Are you ready to embark on a journey of match-three mastery in 'Match!'?"
